## Visual Tricks/Visual Treats

The **Art Insights** program through the **Art Institute of Chicago** will hold a seminar at the Center on Tuesday, January 26, at 1:00. This seminar, **Visual Tricks/Visual Treats**, focuses on still life painting and will help you appreciate new ways to view this genre of painting. A sub-category *trompe l'oeil* (literally "trick the eye"), deceives the viewer by producing the exact dimensions of nature, making the brushwork invisible, and creating the impression that the objects depicted stand in the same space as the observer. Artists convey messages through visual effects, political statements and hidden meanings. Please let us know if you plan to join **Jody Rullman** for this interesting and fascinating art program.

The Center is hosting a seminar by Dan Parsons on Thursday, January 14, at 1:00 on **Legal Issues Affecting the Elderly and their Caregivers**. Dan Parsons is an Illinois licensed attorney specializing in issues important to seniors. Please let us know if you plan to attend.
